# *Hands and body scrub Lait d'Amande*

**SNB**  
PROFESSIONAL  
EST. 1993

**Hand & Body Scrub Lait d'Amande** embodies sophistication and magic, inspired by the beauty of the summer season. It stimulates cell renewal and helps prevent the loss of elasticity.

The Lait d'Amande series features an innovative ingredient derived from plant-based **almond milk**, sourced from the Mediterranean!

Lait d'Amande Hand & Body Scrub gently removes dead skin cells with the help of fine natural exfoliants, wrapping the body in a delicate touch and fragrance. Perfect for relaxation and skin care after a long day, it brings a sense of peace and harmony!

*\*Recommended use: up to 3 times per week.*

**Available in:**

300 ml – Code HBS087

# Active Ingredients:

---

## *Almond milk*

Innovative Ingredient that combines the nourishing properties of almond oil with additional hydrating and soothing effects.

Benefits for the skin:

- Provides deep hydration – thanks to the natural lipids, it helps retain moisture in the skin.
- Softens and smooths – makes the skin softer and more elastic.
- Soothes sensitive skin – ideal for gentle care, reducing redness and discomfort.
- Improves the barrier function – strengthens the skin's protective layer, shielding it from external aggressors.
- Light and silky texture – creates a pleasant feel on the skin without leaving a greasy film.

The almond milk used in the Lait d'Amande series has a delicate and effective action – especially suitable for the hydrating and nourishing care that our skin needs during the summer!

# Active Ingredients:

---

## *Almond oil*

Natural oil, extracted from sweet almonds (Prunus Amygdalus Dulcis Oil), rich in nourishing nutrients.

### Benefits:

- Deeply nourishes and hydrates the skin and nails.
- Rich in Vitamin E, which has powerful antioxidant properties.
- Helps improve skin elasticity, making it soft and radiant.
- Known for its soothing properties, especially for dry and irritated skin.

## *Olive Oil*

Natural oil, extracted from the fruits of the olive tree (Olea Europaea), rich in nutrients.

### Benefits:

- Deeply nourishes and softens the skin and nails.
- Contains beneficial fatty acids and antioxidants, which help slow down the aging process.
- Retains moisture in the skin, protecting it from dryness.
- Soothes the skin, providing comfort and relief.
- Improves skin elasticity, making it softer and smoother.

# Active Ingredients:

---

## *Myristic Acid*

Myristic Acid is a saturated fatty acid.

Benefits:

- Excellent cleansing agent that helps effectively remove dirt and excess sebum.
- Supports the removal of impurities from the skin.
- Used as an emollient and smoothing ingredient, helping to soften and smooth the skin's texture.

## *Lactic Acid*

Gentle AHA (Alpha Hydroxy Acid) with natural origin, extracted from fermented sugars.

Benefits:

- Exfoliates the skin, stimulating cellular renewal and revealing fresher, brighter skin.
- Improves hydration, helping the skin retain moisture.
- Strengthens the skin's protective barrier, enhancing its defense against external aggressors.
- Improves skin elasticity and softness, making it feel smoother and more supple.

# Ingredients:

---

## *Cellulose*

Natural Plant Cellulose, used as a gentle exfoliant.

Benefits:

- Helps gently remove dead skin cells without irritation.
- Improves skin texture, making it smoother and more radiant.
- Natural and biodegradable exfoliating agent – an alternative to synthetic microbeads.
- Stimulates cell renewal, giving the skin a fresh and healthy appearance.

## *Sodium Chloride*

Mineral ingredient, also known as salt, used in cosmetics for various applications.

Benefits:

- Natural exfoliant that helps remove dead skin cells and smooths the skin.
- Supports detoxification of the skin by drawing out toxins.
- Improves circulation, leaving the skin healthier and more toned.
