PRODUCT/PHOTO

FOOT AND BODY SCRUB WITH PROPOLIS AND SEA BUCKTHORN OIL PSN152/153

PRODUCT CONCEPT

Cleans the surface layer of the skin using a combination of sea salt, refined sugar and coconut flakes. The balanced oil base of the scrub provides an opportunity for prolonged massage with a small amount of product. The added propolis is a natural source of antioxidants and has anti-inflammatory properties. The sea buckthorn improves regeneration, prevents infections and gives the skin a healthy appearance.

Key product components:

- **Refined balance between salt, sugar and coconut flakes: to achieve a gentle but effective exfoliation.**
- **Propolis and sea buckthorn oil** have a strong antioxidant effect and fight free radicals, which reduces cell aging and improves skin structure;
- **Propolis** : with its anti-inflammatory and antimicrobial properties, supports the treatment of wounds and skin irritations. The high content of polyphenolic antioxidants in propolis support the nourishment and healing of the skin, ensuring lasting hydration;
- **Sea buckthorn oil:** Used to treat burns and has a wound-healing effect. The content of linoleic acid in sea buckthorn reduces the symptoms of psoriasis such as dry skin and unpleasant cracking.
- **Shea butter** : restores, regenerates and protects the skin from aging.
