

Star Nails – Bulgaria Ltd.

**PRODUCT NAME / PHOTO**

**Hybrid UV gel**

**PRODUCT CONCEPT**

Hybrid UV gel to build volume and free edge. Hybrid nail art gels combine the durability of acrylic and the elasticity of gel.

**Main advantages of the product:**

- Minimal feeling of discomfort and burning (low heat);
- Convenient and easy to work, shape and file;
- Provide a strong and durable coating;
- In a convenient tube;
- No unpleasant and irritating smell;
- Thick, dense texture for maximum control during work;
- They do not stretch and allow long-term shaping and work on 5 fingers.

Star Nails – Bulgaria Ltd.

### APPLICATION

Prepare the natural nails and clean the nail plate with **Active Nail Solution**. Place tips or forms. Apply **Ultrabond** to natural nails. Apply a thin layer of **GELaquer Flexy base** and polymerize. Apply the required amount of Flash UV Gel Hybrid Pink and shape the desired shape, length and volume using a brush and **UV gel finishing wipe**. Polymerize for 60 sec. under UV LED light. Clean off the remaining sticky layer with UV gel finishing wipe and file to desired result.
