SUMMARY OF THE PRODUCT

Application: For recovering and strengthening therapy of natural nails in beauty salons as well as for care at home. Can be used as a final step for any manicure procedure.

Usage:

- For recovering weak and damaged nails at home: apply a drop of oil onto the nail and cuticle and massage gently. For best results apply daily for at least 1 month.
- For intensive care in beauty salons: apply a drop of oil onto the nail and cuticle, massage gently and put the hands in heated gloves to strengthen the action. The therapy can be combined with the application of serum or other recovering, hydrating or nourishing products. If an artificial coating is to be applied after the therapy, soak the hands for a short time in a manicure bath, clean the nails with a brush and dry them well.
- For maintaining and nourishing nails with an artificial coating it is advised to apply daily around the cuticles.
- As a final step by manicure procedures: apply a drop of oil onto the nail and cuticle and massage gently.
